

Evaluation and Course Evaluation Form

EVALUATION FORM:

Evaluator: _____ **Hard Thakkar** _____

Self Score (out of 5): 5

Feedback: I think I learned a lot from my teammates, and I was also determined to provide our team with relevant and detailed insights using the harder graphs to plot, but I'm glad to have to the opportunity to take away that information with me from this class.

Team Member 1: _____ **Kunal Kalra** _____

Score (out of 5): 5

Feedback: Great leader in terms of providing constructive feedback and teaming up in coding and finding insights

Team Member 2: _____ **Miren Patel** _____

Score (out of 5): 5

Feedback: An excellent teammate who was always ready for coding, providing insights, presentation help. And a very enthusiastic presence for an ideal team.

Team Member 3: _____ **John Rock** _____

Score (out of 5): 5

Feedback: he has been a great help in terms of plotting and using ggmaps codes for everybody to reference from. He is another member who was always ready to meet and flexible with timings, which worked out well for us.

Evaluation and Course Evaluation Form

Team Member 4: ____ **Hiwot Argaw** ____

Score (out of 5): ____ **5** ____

Feedback: Hiwot has been a great presence for all of us in terms of starting things for us while some of us would still be discussing the strategies, she would get us started with presentation work, coding plots, working on datasets etc.

Comments/Suggestions for the Course:

- I think if we were exposed to data preprocessing a little more, everyone would be on the same page with it.
- More work needed on comments in the R files provided, because when I worked by myself using class R files, I was very confused as to what code represented what graph.
